

COVID-19 RESPONSE GUIDELINE UPDATES

6.17.2021

The below information was updated in the GSEM COVID-19 Response Guidelines dated 6.17.2021. The information below and the guidelines dated 6.17.2021 supersede all previous editions of the GSEM COVID-19 Response Guidelines.

Page 5 and throughout the document – The Participant Screening Tool/Log and temperature-taking are now only required for daily events with more than one recurrence (such as day camps) and events that include an overnight.

The Girl Scouts of Eastern Missouri COVID-19 Participant Screening Tool, Participant Screening Log, and Participant Temperature Log, including taking participants' temperatures, are now only required for Council and volunteer-led daily events with more than one recurrence (such as day camps) and Council and volunteer-led events that include an overnight, to determine if any participant poses a threat to the health of the group. (Some additional Council events, such as at resident camp drop-off, may continue temperature screening for all who come to GSEM properties, and this will be indicated in those events' confirmations.)
