girl scouts of eastern missouri

Troop # _____

2020 Product Program Rewards Opt Out for Cadette, Senior and Ambassador Troops

Opt out process:

- Girls participating in the Fall Product and/or Cookie Program must vote unanimously to opt out
- Discuss the troop's goal and whether it makes sense to opt out. If working toward a large trip or event, then the extra proceeds may be helpful. However, if the troop does not have a goal, or the goal is relatively small, then earning rewards may be better if there are some girls who still want them
- All participating girls need to sign this form or submit their consent to the troop electronically
- Troop leader or product program manager notifies Council online at girlscoutsem.org/optoutform
- Troop Product Program manager selects to opt out in M2 or eBudde before Go Day (see guides)
- Troop may choose to opt out for one program or both
- One opt out form is sufficient for both programs and should be kept with the troop's records

Check all that apply:

_____ We would like to opt out during the Fall Product Program and receive 20% proceeds instead of the standard 15%. Girls will still receive all earned patches and Project Thank You Top 10 Sellers.

_____ We would like to opt out during the Cookie Program and receive an additional $0.05 per package sold. Girls will still receive, as earned, all patches, rewards at the 1000 package level and higher, troop rewards, and the highest level of camp/travel coupons earned.

Troop members: By signing this form, you are agreeing to forego traditional cumulative girl rewards and instead, choose to receive additional proceeds for your troop during the Fall Product and/or Cookie Programs as indicated above.
